Data Analyst

PROFESSIONAL SUMMARY

Detail-Oriented Data Analyst with **1+** years of progressive experience, including high-impact analytics at **Uber**. Skilled in building automated **ETL pipelines**, migrating interactive **dashboards**, and performing complex **SQL** queries and **Python** scripts across high-volume datasets. Proven track record of collaborating with **cross-functional** global stakeholders, streamlining operations, and resolving complex data discrepancies. Strong expertise in **SQL**, **Python**, **Looker Studio**, and **Tableau**.

EXPERIENCE

Data Analytics Specialist | Uber | Jan 2026 – Aug 2026 | Hyderabad

Supported performance analytics and reporting by automating data workflows, developing dashboards, resolving data discrepancies, and enabling stakeholder insights.

- Automated end-to-end data pipelines using **Google Sheets**, **Python** and **SQL**, consolidating fragmented data into a single source of truth and reducing performance-tracking time by **40%**.
- Built and maintained dashboards to track Quality and A-metrics across **5+** regions and **10+** programs, giving program teams a consolidated view of performance.
- Replaced **20** manual Google Sheets with **SQL** queries and a **Looker Studio** dashboard, reducing weekly reporting time from **2** hours to **30** minutes.
- Rebuilt a Looker Studio dashboard in **Streamlit** with a live **BigQuery** connection and new SQL queries for additional metrics, improving metric discovery by **20%**.
- Identified incorrect data being pulled from a query, worked with engineering to add the correct column and updated the query, reducing stakeholder time spent resolving the issue by **50%**.

Data Analyst Intern | TopN Analytics | Oct 2024 - Mar 2025 | Remote

Delivered analytical reporting and dashboard solutions across Procurement, Retail, and Sustainability while improving data accuracy and stakeholder adoption.

- Accelerated reporting efficiency by **20%** for **3+** stakeholder teams by building **4+** interactive **Tableau** and **Google Looker Studio** dashboards across Procurement, Retail, and Sustainability domains.
- Improved **data accuracy** by **85%** by scraping and processing **1000+** rows of real-time data using **Python** (Beautiful Soup, Pandas, NumPy) to create reliable datasets for analysis.

PROJECTS

Merchandise Sales Dashboard | Tableau, MS Excel | [Link](#)

- Developed a **Tableau** dashboard which provided a detailed analysis of over **7,000** orders to identify key sales drivers and customer behaviour patterns to understand the merchandise line's performance.
- Revealed that **70%** of customers are male with an average age of **26**, and **60%** of product reviews are positive, with "Product Quality" and "Delivery Experience" being the most common review type.

Instacart Market Basket Analysis | SQL | [Link](#)

- Performed comprehensive analysis on a dataset of 1M+ orders and 32M+ order items using SQL for data extraction and manipulation.
- Conducted univariate and bivariate analysis to identify top-performing products, peak ordering days, and high-value customer segments, providing insights for inventory optimization and customer retention strategies.

SKILLS

Languages: SQL, Python

Visualization & BI: Tableau, Looker Studio, Power BI, Google Sheets, Microsoft Excel

Data Warehousing: Google BigQuery, ETL/ELT Process

Data Management: Data Cleansing, Data Research, Data Analytics, Data Visualization, ETL Pipelines

EDUCATION

Master of Computer Application | SNDT University Mumbai | May 2025

Percentage: 80%

Bachelor Of Science | Nagpur University | June 2023

Percentage: 75%

CERTIFICATIONS

Google Data Analytics Professional Certificate | Coursera July 2023

SQL: Data Reporting and Analysis | LinkedIn Learning | Oct 2022
